

## RED PANDAS POWDER

Ref. 300085

Last update 09/01/2024

### Description & Benefits

Complete food for red pandas.

Suitable for all red pandas but this form of rehydrated powder may be particularly suitable for elderly individuals or during weaning period.

High in fibre, vitamins and minerals.

Gluten-free, GMO-free, added sugar, palm oil, lactose, coloring, preservative.

### Feeding Instructions

Mix the powder with water to obtain desired consistency. We recommend 1 part of powder with 1 part of water. It can be stored in the refrigerator for 24 to 48 hours; it will retain its consistency.

Letting it air dry more than 24 hours will give it a very hard consistency, which can also be useful for adult teeth.

Distribute at will. The recommended dose is 25 to 30g per day per kg of live weight, supplemented with forage, bamboo, fruits and vegetables.

Food transition is possible but not systematic.

The physiological stage of the animal and its activity level must be taken into consideration to determine the daily ration.

### Composition

Corn, alfalfa, egg powder, lupine flour, fruit (bananas, figs, apricots, coconut), cellulose fibres, insects (*hermetia illucens*), premix of minerals and vitamins, bentonite, stevia, yeast.

### Format & conservation

5 kg bucket

Supply with fresh clean water.

Store away from light, in a cool and dry place.
